RE: HVAC CURRICULUM

Dear Vera,

I have reviewed the HVAC curriculum and find it does meet the related instruction requirements for registered apprenticeship as defined in the federal regulations on apprenticeship, (29 CFR, Part 29). Though the curriculum and delivery meet the federal requirements, employers should be aware that they would still need to register with our office for compliance with federal contract work.

Thank you for your continued support and dedication to the registered apprenticeship system. Please don't hesitate to contact me if you have any additional questions.

Sincerely,

William J. Kober
State Director
